Please provide any additional information about the incident:

In the FIR video above where I talk about the girl named Akhila mentally and emotionally harassing me along with her lover Mrittunjay Guha Majumdar, I would like to add that she did so while being on phone with someone him or someone else and that she transferred abusive messages to me. The concerned time period is that of the year 2022 and the situation of her direct and indirect abuse is no longer present in my life but the guy, now her husband, continues to commit the crime of Digital Rape while I keep asking or shouting Get Away to make the drones retract to no avail. The situation of several flying monkeys crossing my path whenever I go out and communicate something insulting continues and it has greatly limited my social movements in any shared space as I feel targeted whenever I go out and the normal freedom that a person carries around him or her that accords to him a sort of social invisibility thereby granting him or her personal or private space in a shared space has been ruined for me and each every place carries flying monkeys that serve the purpose of inflicting third party abuse on me and depriving me of my untargeted personal privacy and comfort in any social setting with people. In the video below the lady describes Digital rape and mentions a few cases related to the same. Search the below video title on YouTube What is Digital Rape? Is There Any Law Against it?
