Hello! Are you two dire fools who don't know how to keep to themselves!? Why is your husband sending cameras around me !?

Do you not have even the least moral sense or do you only have the sense to abuse others in one or the other way!!?

Ask you disgusting cheap whoreband to stay away from me and my family and keep staying away forever! Why do you have cameras around us!!? And what kind of a woman you are that you support such a morally degraded man!?

Ask him to NOT send ANY flying monkey and retract his cameras and keep a tab on his own home instead, and NOT try to cause any form of disturbance in other people's lives who don't want to have anything to do with him!!

If one is morally stupid, will the other follow along!!?

Do you people not know what it is to be married!? Why is this cheap in character person watching me and has his cameras around me!?

And how are you ok with it!? Do you only know to think and utter senseless blabber and NO morally right thing!!?

If you're SO empathetic, ask your gunda husband to keep away in all ways and or threaten others!

NO morally right thing!!?

If you're SO empathetic, ask your gunda husband to keep away in all ways and not abuse or threaten others!

And if you yourself are a morally downtrodden person which seems to be your ultimate aim to live by, please send me the link to the mobile app or the website the disgusting man made showing me. And I will file a complaint with full proof this time!!

If you people live by the mindset of whores with no presence of good moral sense, let alone being an averagely good human being, why do you target others and try to ruin their lives!? Is only materialistic abundance visible to you and not the extreme scarcity of good character where you only know to eat, sleep and talk rubbish and use your bodies to gain sensual pleasure!? Is that what your life confined to lacking any sense of morality and basic principles one is supposed to live by!

You

If you people live by the mindset of whores with no presence of good moral sense, let alone being an averagely good human being, why do you target others and try to ruin their lives!...?

If this is not the mind of a whore, then what is it!? Who only wants material possessions but doesn't have a sense of godly morality! Even after getting married, your cheap husband is causing hindrance in my life in multiple ways as my health is failing! Is this your empathy!? You hypocritical abusive liars!

Life is more than counting money and sleeping with an uncommitted person you know! If you people don't have this sense, don't impose or throw your immoral mental shit on others!!

Non of my family members should suffer because of this disgusting man. If theu do, may God judge you all rightly!
