1. A Slaughtering

Vision (Room D4, Late 2021/Early 2022): A distant vision of arms (dressed in full-sleeved parrot green) of a human being thrown away. To whom it was happening wasn't shown, but the vision only contained the throwing away of slaughtered body parts one by one. Almost as if the person (not in the sight of the vision) was being slaughtered in the vision and his parts were being thrown away.

2. Eyes of Love

Vision (Room D4, Late 2021/Early 2022): Faces of my brothers and sisters whom I had got to know by then were being shown to me in a repetitive sequence, and their eyes were dark red and bulging outwards. The red eyes represented the eyes of love. I saw the faces of Brother Wally, Sis Adele, Sis Candace and a few more brethren in Christ. I had seen the faces of 4-5 people in that vision repetitively.

3. A Professor Holding a Red Rose

I work in the dept of the Physics & Astrophysics in University of Delhi.

Vision (Room D1, Late Dec 2022/Early Jan 2023): I saw a distant vision of Prof Sanjay Jain of my dept standing in a dark background with his hands folded straight down, one on top of the other. He held a rose down by its long stem and was dressed in a maroon tunic with a black half-jacket on top and white bottoms as he looked down with a slight bent of the head and moved at his position infinitesimally vertically.

4. The Gang and Sexual Immorality/Harassment in Educational Institutions

Dream (Room D1, Mid 2022):

The Gang

In this dream, I found myself catching Rekha Aunty on a street I was walking by. She used to work in the adjacent PG (Saroj Sadan, A-17/B) as a cleaning and cooking help. I had become wary of a group/gang of people who abducted girls/women to exploit them physically and sexually and knew that her daughter Sonya often passed along the same route. So I caught her up and warned her of the same.

It so came to happen that she was actually taken away and the next scene had me standing in front of her with her mother by her side. She had been released by her captors now and was wearing a long loose white t-shirt. I asked her if she was all right as I was concerned about what the perpetrators might have done to her.

She explained briefly though she still looked unbroken and confident in herself as she stood there.

Sexual Immorality/Harassment in Educational Institutions

The next scene then showed a grid of solid cemented stools with cubical tops on a platform on the ground in front of a dark wall. On top of the stools were sitting women with their tops lifted above their breasts with men sucking one of them (without touching them).

I saw my supervisor Prof Nivedita Deo sitting on one of the stools with her top lifted above and the

then HOD of my dept (Prof Brajesh Choudhury) sitting down sucking her right breast. The vision showed a close-up view of the Hod's face and her breast for a good span of 4-5 seconds before shifting close to her face showing her expressions. She looked expressionless sitting there and looked ahead of her. The vision then showed the full grid with women sitting on those cemented stools all over the platform. Some seemed to be PhD students or postdoc fellows as they looked quite young, while others were middle-aged. I saw a young slim lady dressed in a printed white tunic sitting on one of the stools at the back. Some were sitting idle while others were occupied. There were some unoccupied stools as well. I then saw a Korean-looking middle-aged fat man with little hair on his head dressed in a black suit walk towards one of the stools present at the back. He looked like a visitor.

The next scene had me going to meet my supervisor on a sunny roof with trees to our right. She pointed to one of the trees and said something and as she said that she was smiling. I was amazed at how casually she behaved knowing the truth about the system she was a part of.

Though I saw what happens in my dept for the first time in that dream, God saw it all the time!
