

## 43. Vision: The Globe of The Serpent Race

08 July 2022 01:12

After my belief in the Messiah (the God who saved us from judgment in Hell) was strong and I had proof for myself, I wanted to follow Him and His ways as much as I could. The same friend of mine shared once about 'Sabbath' with me in 2020. I hadn't yet read the ten commandments or even the New Testament completely, but I was on my way. I started keeping Sabbaths seriously from the point in time I got to know how they were kept and that they were given as one of the ten commandments.

Towards the end of one of my Sabbaths, I thought of calling on the name of God and seeing if something happens (it was during the year 2020 itself). I started calling on the name 'Yahuah' repeatedly and continued for a while after which I started seeing a rotating globe covered completely with black serpents wherein the rotation was from left to right. And then fire streaks started going around that globe as if it was being destroyed. The vision ended there. I didn't know what it meant until I came across the ministry of brother Jonathan Kleck on YouTube in the middle of 2021 - again suggested by the same sister and friend.

After watching his ministry, I understood what my globe-vision had meant. The earth is home to the serpent race (or devil's race) and this system is not of the One Most High God who is above it all - the creator of everything. This system is headed towards destruction by fire at the end.
